Dear Daniel E. Meeks,

Most members of the repossession industry have long strived to be called "Professionals" or to be described as professional in their trade. We as an industry should to stop to reflect on our past, evaluate our futures and determine what course of action will best get us to the level of professionalism that our clients have come to expect and more importantly that we expect of ourselves.

You have demonstrated your professionalism through your willingness to set aside time to learn the laws and regulations that affect you as you perform your service to the industry. By studying the case law that has resulted from other's actions in the business, we have the ability to learn from other's mistakes and experiences. By continuing along this path of continued education, there are no limits to what you as an individual and we as an industry can accomplish.

With the above in mind, it is our pleasure to present you with this certificate of successful completion of the Repossession Agent Certification Course covering the Fair Debt Collections Practices Act (FDCPA), Uniform Commercial Code (UCC) and the Case Law and Statutes covering repossession in the state of Florida. Your score on the certification course exam was a 96. If you would like to discuss your exam in further detail, please do not hesitate to contact the course instructor, Mike Howk, directly at 877-740-1406.

Congratulations,

IG., Inc./RSG
